

# Jump in Jack (\$JiJ) – Mini White Paper

---

Chop the bears. Plant the trees. Reward the holders.

## 1. Introduction

Jump in Jack (\$JiJ) isn't just another meme coin.

Born in the forests of Canada, JiJ is a Solana-based token inspired by a real lumberjack's face-off with a monstrous bear. JiJ is the pioneer for Regen culture, breaking-free from the evil lunacy of Degens running rampant in the meme coin space. The front-runner for authentic storytelling, community-driven growth, and a vision to reforest both the blockchain and the planet. JiJ exists to reward the bold, wreck the weak, and hunt its way to a greener world.

## 2. The Lore of JiJ

JiJ was forged in reality.

One spring morning, Jack and his father encountered a massive bear deep in the woods — a cinnamon giant, straddling the line between myth and apex predator. Unsure of whether it was a grizzly or King Kong, they debated, referenced guides, and finally...

"F\*\*k it," his dad said. "It's a monster."

The rifle fired. JiJ was born.

From that moment came the ethos of JiJ:

Chop  
Hard  
Or  
Perish

## 3. Vision & Values

- Chop the Bears: We confront FUD, rugs, and downturns head-on.
- Plant the Future: Reforestation is built into our roadmap.
- Embrace the Meme: JiJ is regen-powered but vision-backed.
- Reward the Brave: Diamond hands gets paid. Paper hands get chopped.

4. Tokenomics

Category	Allocation
Community Airdrops	TBC
Liquidity Pool	TBC
Ecosystem Growth	TBC
Staking & Rewards	TBC
Team & Advisors	TBC
Burn Reserve	~0.98%

Token Standard: SPL  
Chain: Solana  
Ticker: \$Jij  
Initial Supply: 1,000,000,000
